

## Things to do prior to surgery

- Pick up prescriptions 1 week prior to surgery.
- Pay anesthesia 1 week prior to surgery. See insert.
- Pick up stool softeners and any ointments needed for your surgery (i.e., Aquaphor).
- Pick up eye drops, if having eyelid/facial surgery.
- Discontinue all NSAIDs (Ibuprofen, Aspirin) 7 days prior to surgery.
- Discontinue any stimulant medications (Adderall, Phentermine) 5 days prior to surgery.
- Discontinue all vitamins and supplements 7 days prior to surgery.
